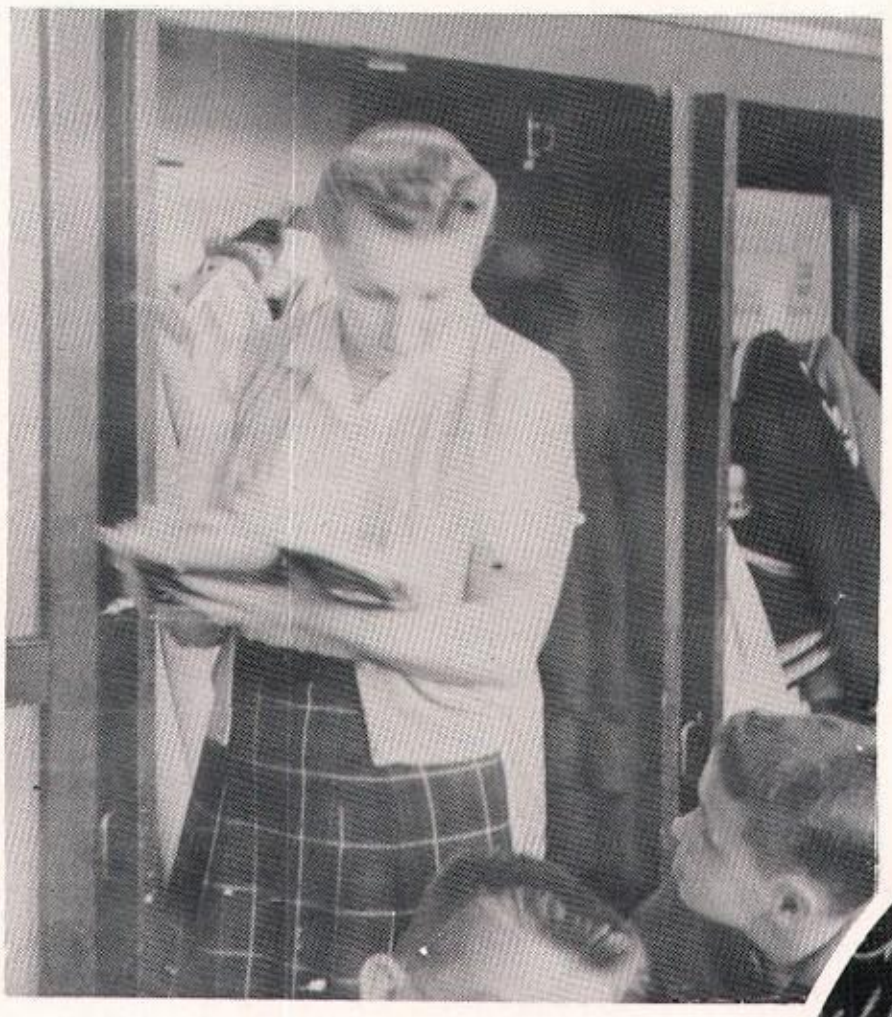
PRESENTING

THE 1960 HERALD

Dedication

To you, Miss Ehrler, we, the students of Harrold Junior High, proudly dedicate the 1960 "Herald" in honor of your many services rendered to the students and the school. The time you devote as school treasurer and sponsor of the Math Club along with other teaching duties is appreciated by all.

On behalf of the student body, we would simply like to say, "Thank you, Miss Ehrler."



Miss Ehrler teaches Algebra to five ninth grade sections. Here she is helping Denny Good with his homework.

One of Miss Ehrler's activities is being treasurer of our school. This includes collecting the money for special assemblies and the basketball games. She is also a central treasurer for our school clubs.

Miss Ehrler admires an icosahedron made by the Math Club of which she is the sponsor.

To The Class Of 1960

Mr. Kenneth Ruoff
Our Principal

I greatly appreciate the invitation to write for your Herald. I have not been able to become as well acquainted with you as I would have liked. The thoughts that I express here may help to establish the relationships which I have been unable to do personally.

For the past three years, I have had the privilege of associating with you. I have seen you enter the Junior High as adolescents and leave upon the threshold of adulthood. You have participated in many activities, academic as well as social. You have studied and explored many areas. You have grown mentally and physically. Many challenges have confronted you, most of them have been met successfully. Your achievements have been notable. Many honors have been won. From your learning experiences, you should now be better able to evaluate your talents and weaknesses. How well you are able to do this will help determine the contribution you make to mankind.

Your short stay in the Junior High has been trying at times as well as joyous. I have had a part in some of your experiences. I am sure that my life has been richer for the experience. You have strengthened your basic skills, acquired more knowledge, and developed poise. You will have the opportunity to learn much more before your education has been complete. My sincere wish for you is that you will utilize your talents and knowledge to enrich your life so that all of society will benefit.

Eighth Grade Class History

Entering Harrold Junior High School for the second time we eighth graders brought some old things with us - friends, hopes, ideals and we a' o found many new experiences. As we ' me back this year we saw many familiar f.ces and had so much to tell our friends about the happenings of the summer. Also we elected class officers. We were the first eighth grade ever to have our own officers! This year we were invited to join some new clubs such as the Chorus and Yearbook. Next year we'll be looking forward to new experiences, including algebra and a foreign language. We are very anxious to become Freshmen and the leaders of the school.

The First Year

Our first days at Harrold were so different from the days at grade school. Everyone was so friendly and always said "Hi", to us. The excitement of changing classes instead of staying in one room all day long was great. The school was a lot bigger and there were dances to attend and clubs to join. The cafeteria was also confusing, but we soon got used to it along with the routine. Remember how proud we were when our names appeared on the honor roll for the first time, but we now have an award to show for our hard work. We went to football and basketball games and even elected a class president! Our seventh grade class is the first class to do this and we are sure our president, Tom Long, has done his very best. We are very proud and happy to be a part of such a wonderful school as Harrold and we look forward to our future years here.
